

Software release 1.01

Software release 1.01 is for the AXIS Camera Explorer for Pocket PC with part no: 0136-xxx. For previous buyers of the 1.00, software upgrade is free of charge from the Axis web site. The 1.01 software as the 1.00 version can also be installed for a 14-day trial period for new users. All features of the previous software 1.00 are retained. Settings and image database will be retained during the upgrade process.

The main highlights are:

Support for Pocket PC 2003

Axis Camera Recorder for Pocket PC now also supports Pocket PC 2003, also called Microsoft Windows Mobile 2003 for Pocket PC.

Support for additional Axis Camera and Video Servers

- **AXIS 205** (Entry Level Network Camera without I/O ports)
