

Software release 1.02

Software release 1.02 is intended for the AXIS 70U Network Document Server with part no: 0162-xxx-01. The software is available free of charge on the Axis web site. All features of the previous software 1.00 are retained.

The main highlights are:

Support for additional scanning devices

- **Visioneer**
 - **Visioneer 9450 USB** (A4/Letter, flatbed, ADF, b/w, grayscale and color)
 - **Visioneer 9650 USB** (A4/Letter, flatbed, ADF, b/w, grayscale and color)

LDAP enhancement

- The LDAP client is upgraded and communication with LDAPv3 servers is now supported.
- Address retrieval using LDAP is more efficient. Loading of e-mail addresses is now significantly faster.
- The handling of large address lists is improved. Quick search done with the keyboard is now significantly faster.
- LDAP addresses can now be fetched from more than one container on the LDAP server. Example for the Search Base field:
(ou=Sales,o=MyCompany)(ou=Marketing,o=MyCompany)

Other enhancements

- It is now possible to set the Num Lock, Caps Lock and Scroll Lock mode for the optional keyboard.
